¹ May require an Internet connection to the printer. Feature works with any Internet and email capable device. For details, www.hp.com/go/ePrintCenter

² Support image files in bmp, jpg, png, gif and tiff formats.

What is HP ePrint Mobile Printing?

HP ePrint is a free mobile printing service that allows you to print from anywhere, anytime directly to select HP printers, using a smartphone, notebook or other mobile device. HP ePrint mobile printing offers:

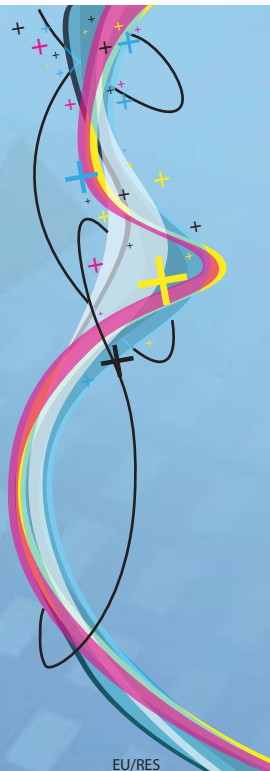

Mobility. Print from anywhere by sending your print job via e-mail!

Convenience. Use the mobile devices you already have, without needing additional applications or software.

Versatility. E-mail a range of materials and file formats, including photos and everyday documents.

Accessibility. Share your printer's e-mail address with family, friends, and business colleagues.

Use HP ePrint mobile printing to instantly share memories (send a photo of your child's first steps directly to Grandma's printer two states away) or print important materials without delay (print itineraries, directions, purchase confirmations, and more, right from your mobile device).
