Supreme 1000R curve

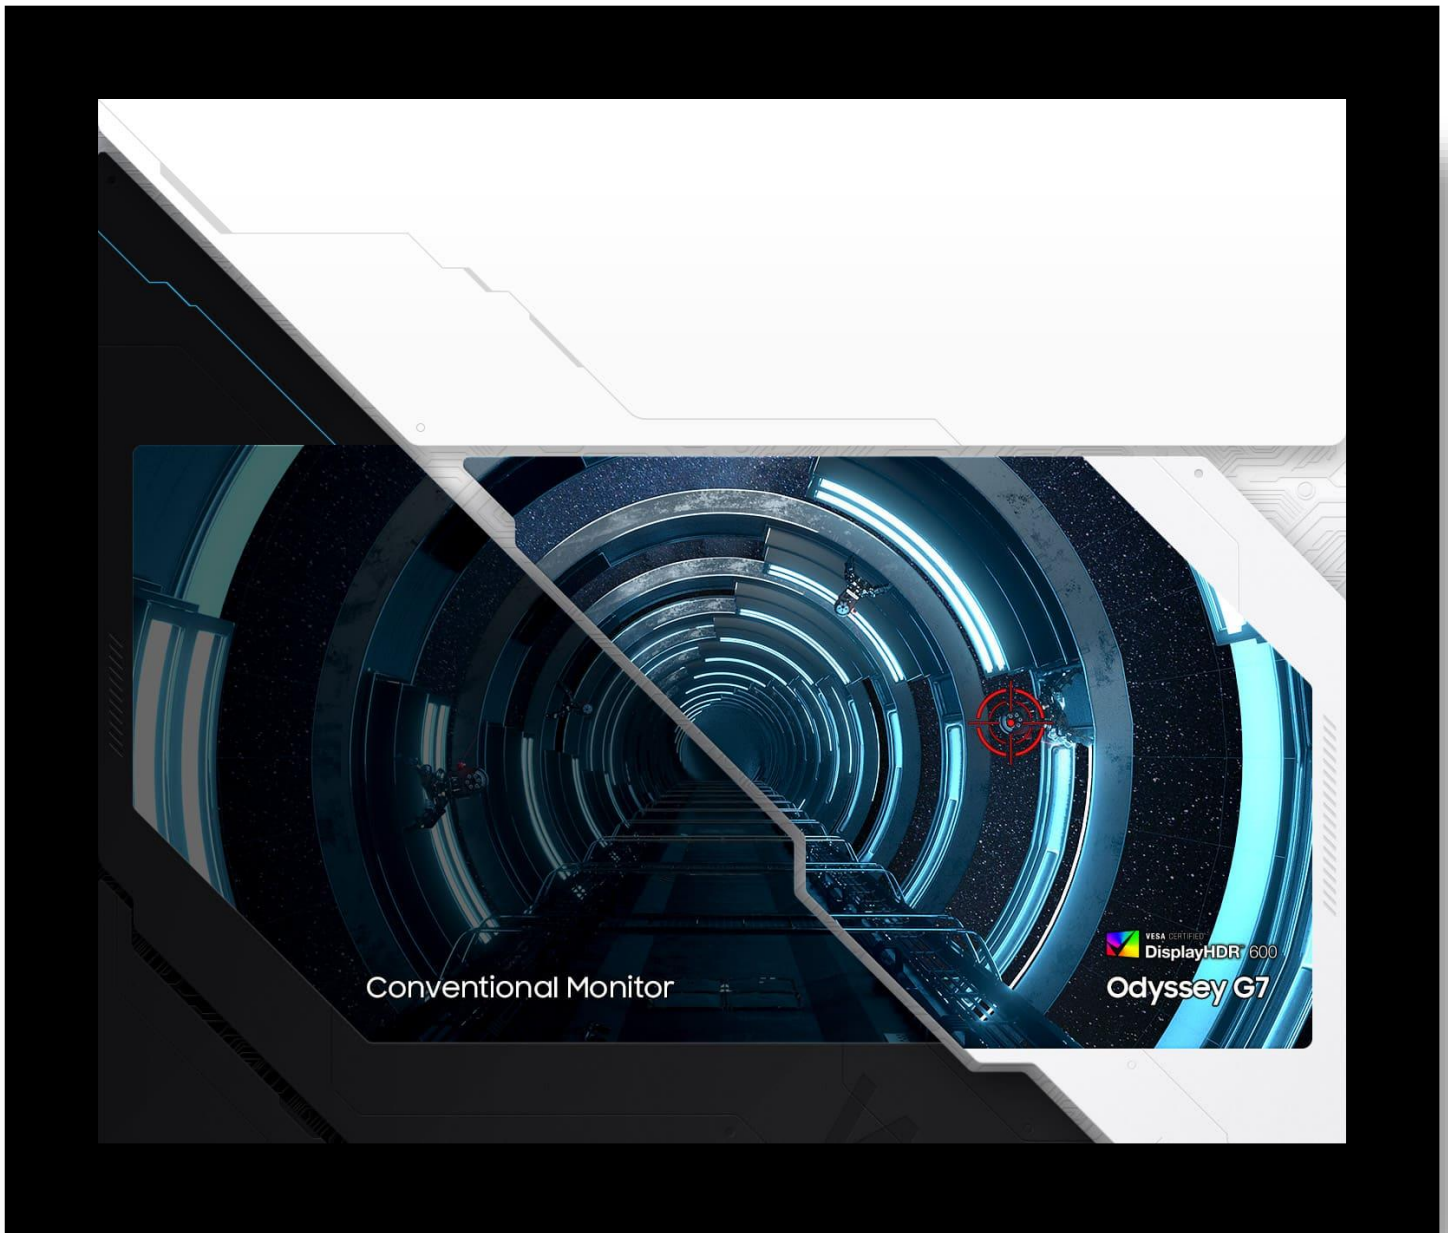

Vivid scenes wrap even more tightly around you. Experience the next level of heart-pounding gaming that's superior to anything you've seen before. The 1000R display fills your peripheral vision and draws you into the character's shoes.

* 'R' is an acronym representing circular radius. The smaller the 'R' value, the deeper the curve.

Vast HDR600 shades

Reveal the whole picture. HDR600 delivers more contrast, with deeper blacks and brighter whites. Even in dark scenes, every detail shines with clarity.

WQHD resolution

Your gaming world, more lifelike than ever before. Packing in 1.7 times the pixel density of Full HD, WQHD resolution boasts incredibly detailed, pin-sharp images. Experience a fuller view with more space to take in all the action.

Low input lag. Rapid reflexes.

Seize winning control. The incredibly-low 2ms input lag brings never-before-experienced response accuracy to catch notoriously-agile enemies. It's so fast, that action begins instantly when you turn on the screen, with virtually no delay between your peripherals and the game.

Quick, smooth reflexes

Conquer every enemy, even at soaring speeds. 240Hz RapidCurve eliminates lag for exhilarating gameplay with ultra-smooth action. Jump on enemies right when you see them with a 1ms response time, precise mouse movements, and blur-free frames with no ghosting.
