

The World's 1st Do-It-All Screen

The monitor for every side of life. Get work done without a PC, with the installed Microsoft Office 365, or by remote access to your office computer. Then switch to pure entertainment with the on-board one-stop entertainment system.

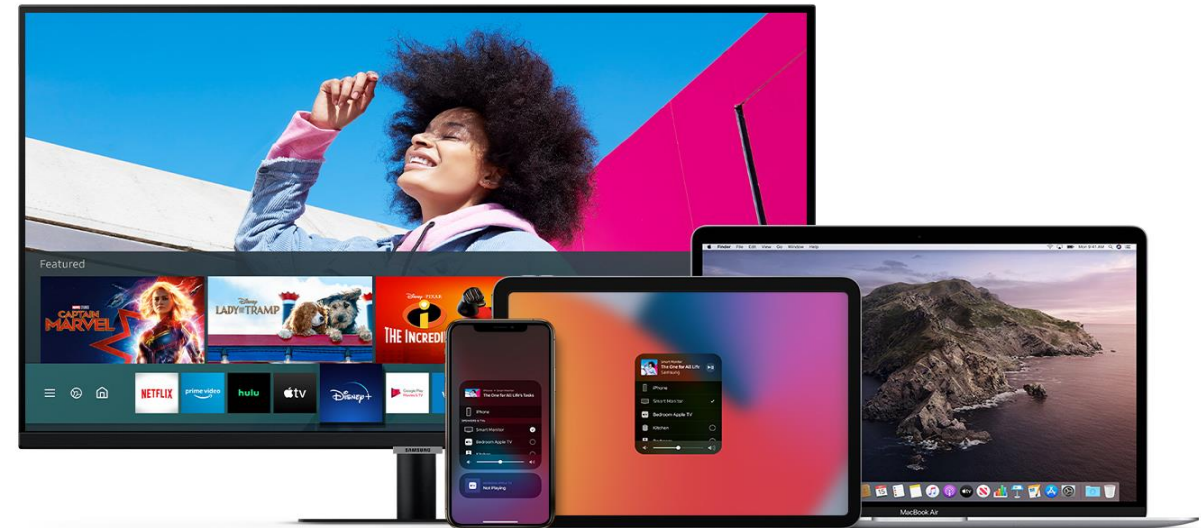

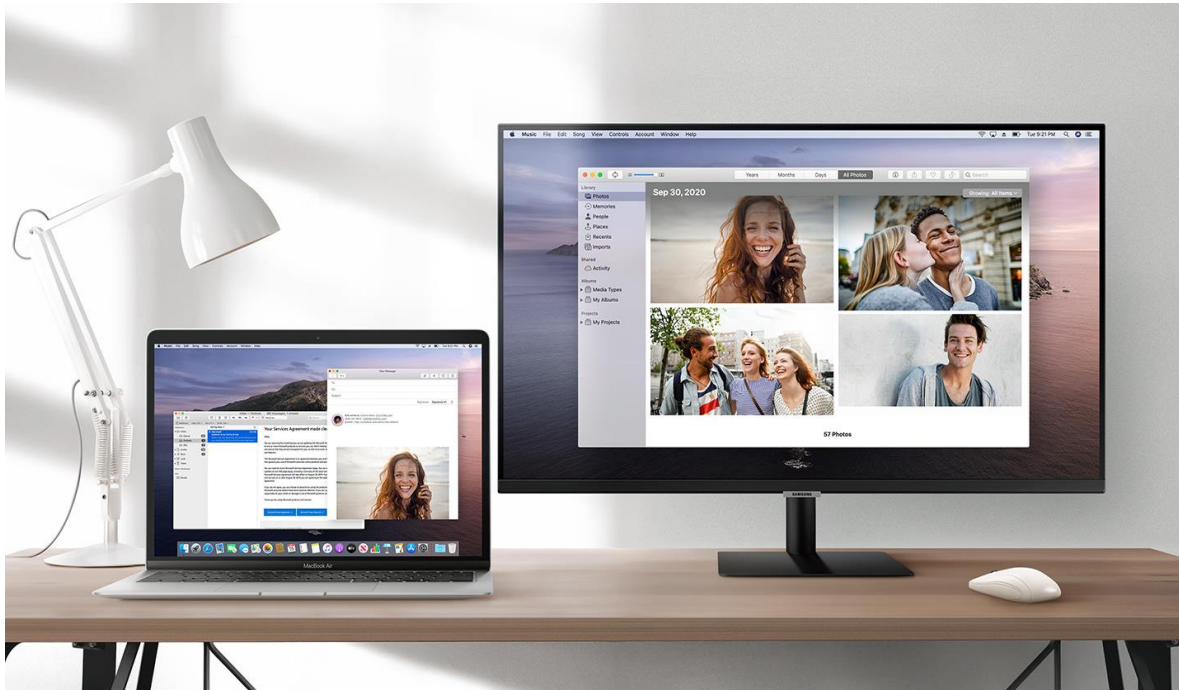

- * World's first monitor to combine OTT media service, mobile connectivity, and remote PC capabilities
- ** On-screen content simulated for demonstration purpose

Connect with AirPlay 2

AirPlay 2

With integrated AirPlay 2, use Apple devices to work and play on the big screen. Improve your workflow by creating a wireless dual monitor setup with your MacBook and Smart Monitor. When it's time to relax, effortlessly enjoy videos, music, photos, and more from your iPhone or iPad.

More pixels show you more UHD resolution

Astonishing picture quality for work and play. With 4x the pixels of Full HD, the Smart Monitor delivers more screen space and amazingly life-like UHD images. By day, see more documents at once. And, in the evening, watch movies in cinematic 4K quality.

Stream endless entertainment

Smart TV Apps

Binge watching got even easier. Access a bunch of entertainment apps, such as Netflix, YouTube, and HBO, without switching on your PC or laptop. The remote control and built-in speakers simplify your chill time.

* App availability may vary by country

** Subscription required

*** Remote control specifications may vary by country

****TV tuner not included

Work and learn from a distance

Remote Access

Work seamlessly from anywhere. Boost your productivity with Remote Access features. Using the Office 365 suite, view and edit documents, and conveniently save them all on the cloud. Even while at home, Remote Access lets you work remotely on your school or office desktop.

* Windows 10 Pro, Mac OS 10.5, or higher, and compatible network settings are required for this feature

** On-screen content simulated for demonstration purpose

Connect with convenience

USB type-C

The USB type-C port enables you to power up, transmit data, and even send display signals between devices with just one connection. Its single connection architecture brings an enjoyable work environment that's both clutter-free and stress-free.

Power

DP Signal

DATA

USB Type C

Just say "play" to play

Voice Assistant

Your monitor listens to what you tell it. Switch between apps, control videos, and more through the Voice Assistant or SmartThings app.

Plug and see

Auto Source Switch +

No more switching around. With Automatic Source Switch Plus, your monitor detects newly connected devices as soon they're plugged in, and displays the correct signal. No more searching for the right input on the menu.
