INTEGRATE AND MIGRATE

HPE Lifecycle Services

Ensure a smooth transition to new platforms and trouble-free operations within the IT environment with highly trained specialists and best practices from HPE Pointnext Services.

Simplify and accelerate. Our experts will work with you to develop a plan to integrate new technology into your existing environment and migrate critical data safely, while reducing disruption and minimizing future maintenance.

INTEGRATION SERVICES

Blurred boundaries between your server, network, and storage can threaten KPIs, and a siloed approach can miss business and IT objectives. HPE Pointnext Services can help you integrate your HPE solution with your

Hybrid IT environment faster and easier so that you can:

- Save time and resources with HPE Pointnext Services expertise and a proven delivery methodology, freeing up your staff

- Reduce risk and complexity with HPE reference architectures and best practices to integrate HPE infrastructure and software with your IT environment

- Gain knowledge so you can continue to manage your HPE solution with confidence and experience

We offer standard pre-packaged services for simpler integration requirements and a range of custom services based on your requirements. These can be purchased as blocks of time or scoped as a statement of work. All of the above offers can be attached alongside a new technology purchase, making it simple for you to purchase and consume.

WE'RE WITH YOU EVERY STEP OF THE WAY

Boost your IT performance today, modernize for the future, and maximize your return on investment over your entire IT lifecycle.

Outcome-based services **for every stage of the IT lifecycle**

DATA MIGRATION

For most customers data is vital to the business, therefore you need to ensure it is migrated carefully and safely with no data loss from the old IT environment to the new. This is a critical and complex task that requires planning, skill, and expertise. That's exactly what we offer from HPE Pointnext Services. We provide hassle free integration and migration services with no disruption to IT operations and you can rely on our expertise to iron out any potential integration challenges.

RELOCATION SERVICES

Whether it's for a single server or an entire data center, HPE Pointnext Services can coordinate and manage your IT relocation. We provide a complete relocation service including de-installation, packaging, point-to-point transportation, and reinstallation for both HPE and non-HPE technology. You can contract with one vendor to oversee and manage the entire relocation project from start to finish.

RECERTIFICATION SERVICE

If your choice is to relocate yourself your equipment or use a third party , you can benefit flexibility from the Recertification service that will strive to verify the functionality and continued supportability of equipment under HPE support after the move, in order to guarantee business continuity.

WHY CHOOSE HPE POINTNEXT SERVICES?

Benefit from innovation built on HPE intellectual property. This lowers your risks and costs using proven best practices, automation, and methodologies that have been tested and refined by HPE experts through 11,000 IT projects a year.

Work with best-in-class ecosystem partners. Accelerate your business with experienced, certified experts who can assist with a wide range of HPE and multivendor technology.
